DOWNTIME

4:00am – 5:30am

We have processes that need to run every day in order to keep the data up-to-date and accurate. During this time period, certain parts of the application will be inaccessible. Once our processing has completed, the latest available data will be available again and full system functionality will be restored.

OPTIMAL RESOLUTION

1024 x 768 or larger

MINIMUM RECOMMENDED BANDWIDTH

384kbps
