Investor Relations

Investor Relations have over the years become a crucial part of any listed company's communication strategy in order to keep both current and potential investors informed. McGregor BFA has a wealth of experience in this field and currently holds significant market share in the provision of market-related data to listed corporate websites.

FEATURES

The Investor Relations offering comprises both standardised and customisable solutions allowing you to select exactly the data you wish to display on your corporate website from a vast array of data components. Flexibility of the offering is further enhanced by McGregor BFA's ability to provide data in a number of formats in order to simplify implementation.

COMPONENTS

Some of the company-specific information McGregor BFA can make available to you includes:

- JSE pricing data
- International price data
- African price data
- Stock exchange news service (SENS)
- McGregor BFA news
- Technical charting
- Statutory information
- Dividend history
- Financials (full financials, financial summary or financial overview across multiple years)
- Financial ratios
- Brokers' forecasts
- Brokers' consensus
- Directors' dealings
